Introduction to LA HAP and HIP Coverage for Dental Providers

The Louisiana Health Access Program (LA HAP) is a secondary payer program that uses federal grant resources to provide access to medications and/or insurance services for individuals who meet specified medical and financial criteria. Funding is made available through the Health Resources and Services Administration (HRSA) and LA HAP is administered through the Louisiana Office of Public Health.

Providers may verify a member's current eligibility by calling LA HAP staff at 504-568-7474.

The Health Insurance Program (HIP) is a component of LA HAP that is administered by a Baton Rouge-based social services organization, HAART Inc., to process payments to medical and dental providers on behalf of LA HAP members.

Providers may check status of claims by calling HIP staff at 225-424-1799.

Coverage of Dental Services

HIP covers the costs of copays, coinsurance, and deductibles associated with a member's primary insurer. Additionally, the following full-cost services may be covered by HIP:

- Medically necessary services provided to a member before they reached the end of the coverage waiting period imposed by their insurer
- Medically necessary services provided after a member has reached their annual benefit maximum
- Medically necessary services provided above the maximum annual number set by the insurer
 - Example: the insurer allows one crown replacement per year. HIP can cover additional necessary replacements at full cost until the plan year resets.
- Medically necessary services provided by an out-of-network provider when no in-network provider is available

In all instances described above:

- The service must be a "covered service" on the Schedule of Benefits (i.e. one that would normally be covered for the member if one of the situations above did not apply to them).

- Members and their dental providers are highly encouraged to explore the most cost-effective treatment plans in an effort to maximize the financial resources available to all HIP members, including:
 - In non-emergency situations, waiting to receive/provide services until a member has reached the end of their coverage waiting period or entered a new plan year
 - Opting to use an in-network provider over an out-of-network provider if it is reasonably convenient for the member to locate and access an in-network provider

On a case-by-case basis, HIP can also cover the cost of a service NOT on the insurer's Schedule of Benefits. The service must be deemed medically necessary per a documented dental care plan and the member or their dental provider must consult with HIP PRIOR to receiving/providing services if they intend to bill HIP.

Billing HIP

Providers have the option of billing HIP directly by submitting a HCFA-1500 form along with a copy of the service-related Explanation of Benefits. If the provider chooses not to bill HIP directly, the HIP member may forward medical bills to the HIP office for payment. *Please note that HIP cannot reimburse its members for any payment they may make to providers themselves.* While it is every provider's choice as to whether or not they agree to work with HIP, most members have few options for accessing affordable health care apart from HIP and we encourage you to contact us with any questions you may have about the program.

Please note that changes in income or insurance coverage may affect a client's eligibility for services and cause their LA HAP/HIP benefits to be terminated at any time. Therefore, your office should contact LA HAP at 504-568-7474 to verify eligibility on the day that services are rendered, prior to them being rendered.

If you have any questions about billing, HIP staff can be reached by calling 225-424-1799. Medical cost-share bills and EOBs can be provided to HIP via fax or mail:
